		ACTION
2433.	DEMOCRATIC TIME. A parishioner complained about the traffic being diverted down Smallgains Lane whilst work was being carried out in the High Street which caused the lane to become grid-locked. She stated that if anybody had been ill an emergency vehicle could not get through and the lane is now severely damaged. The Chairman advised that Smallgains Lane was not the authorised diversion, which was the responsibility of Highways. Buses were diverted down the lane, as they had to keep close to their route but there were only about two an evening. The Chairman stated that emergency vehicles will always get through somehow. The Parish Council did not feel that there had been a lot of traffic and stated that it was a few evenings of inconvenience for work the village had waited years for. It was pointed out that the diversion signs were not clear and people did not know where they were being diverted to. The Chairman advised that the authorized diversion route was from the A12 and not as you approach the village as Highways had tried to divert the traffic away from the village. He stated that it was people who knew the village that had caused the traffic problem. Cllr. Johnson said how well the contractors had managed and that they had made an excellent job. Cllr. Hawkes and Rilstone commented that the contractors had been very courteous. It was agreed that the Clerk should write to Highways advising that the Parish Council were unhappy with the diversion signage but the work went extremely well and staff had been very obliging and polite. A parishioner stated that the new road surface in the High Street is only partially red. The Chairman stated that he expected it to be redder as well. The parishioner stated that white lines had been put down the middle. The Chairman advised that the Parish Council had understood there would be no lines but clearly Highways had changed their minds. The parishioner reported that people are now racing through the village as they go out towards Billericay. The parishioner was also concerned that the road surface is going to break-up as small holes are already appearing.	CLERK

<p>2443.</p>	<p>DISCUSSION ITEMS.</p> <p>Replacement Bus Shelter – The Chairman advised that Highways do not currently have a start date programmed for the bus stop works as they are awaiting delivery of granite Kassel Kerbs. They have decided to use granite kerbs instead of standard concrete at this location to ensure that they retain the character of the Conservation Area.</p> <p>Allotments – It was agreed that the Parish Council still needed to find some land. It was agreed that the ownership of the land at the rear of the Village Hall needed to be established. Cllr. Woodward advised that the strip of land by Orchard House would be suitable. Cllrs. The offer had not been rejected but the Chairman had been told the amount was short of the valuation of the property. The Chairman had applied for a discount and the Parish Council would be eligible for 25% discount from the agreed valuation of the property but ECC cannot confirm fully that the Parish Council will get the discount until they can submit a detailed financial plan which the Parish Council are not currently in a position to do. Concern had been raised at the visible cracks in the building. The Chairman had taken some advice and had been advised that it was nothing much but professional advice would be needed in case of problems in the future. The Chairman said that the Parish Council needed to ascertain what the use would be of the building and they would have to fully justify the use of the building and give it justifiable use. The Parish Council need to look at how to finance the purchase and maintain the costs of running the building which the Chairman thought would be in the region of £5k - £6k per year. The Chairman advised that one application for use of the building had been received and the Parish Council needed to justify taking a loan out on this application alone. The Chairman advised that the Government have a consultation out at the moment which could probably prevent the Parish Council from increasing their Precept next year and maybe for the following year. Cllr. Johnson advised that Writtle had recently opened an archive centre. Jenny Berkley of the Heritage Society advised that the Society could probably help cover the running costs and people in the village may be able to contribute towards purchasing the building. It was agreed that the Parish Council needed to know what financial contributions the Heritage Society could give and if there were any people in the village willing to give donations to help purchase the building.</p> <p>Chairman to circulate all details to all Councillors for comment. The Chairman stated that the Parish Council need to look at what income could be generated and how they could raise money to avoid having to borrow funds as people may be willing to make donations to help with the acquisition of the building.</p>	<p>SJ/PW</p> <p>CLERK</p> <p>CLERK</p> <p>JD</p>

	<p>Cllr. Grundy suggested putting out a consultation document and put through residents doors to get the villagers' feeling on the matter or to hold a public meeting The Chairman advised that it would cost £26,500 to acquire the building, £1,500 legal fees in connection with the purchase, £500 - £600 for a structural survey and electrical inspections would be required. It would cost approximately £30k to acquire the building.</p> <p>It was agreed that the building has got to be used for the whole village and cannot just be used for the Heritage Society. Cllr. Grundy felt that it was an investment opportunity.</p>
